Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 7-19, and 21-34 are found to be in condition for allowance.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly teach or suggest, "quantifying busy sectors by using a second higher QP value and flat sectors using a third lower QP value if a video frame has sufficient busy sectors and surplus bit rates are sufficient to encode the flat sectors, and encoding the video frame entirely using a first default QP value if encoding the video frame entirely using the first default QP value would be more efficient than quantifying the busy sectors using the second higher QP value and quantifying the flat sectors using the third lower QP".

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the
